Coverage

Single city

Multiple cities within same country

Name of the city/ cities your project is targeting

Will this project be supported (non-financial) by the Urban Local Body, National Government or any other relevant agencies?

Yes No

Note: Letter of support from relevant Government/ Infrastructure agency will be mandatory during the detailed proposal submission.

Thematic scope

Select all fields applicable

- Project development support for risk informed urban infrastructure design and planning
- Data for decision making including impact based early warning systems
- Support for resilient recovery
- Resilient infrastructure and climate adaptation investment strategies, including nature-based infrastructure solutions

Hazard scope

Select all fields applicable

- Extreme heat/ cold
- Flooding
- Water scarcity/ Drought

Primary sector

Select most relevant field from the list

- Energy
- Hospitals
- Schools
- Transportation
- Water

Secondary sector

Select all fields applicable

- Energy
- Hospitals
- Schools
- Transportation
- Water
- Other

Call for Proposal objective the project is expected to contribute to

Select all fields applicable

- Enhancing access and application of data, tools and knowledge by Urban Local Bodies (ULBs) leading to improved design, operation, and maintenance of infrastructure

Increasing access to infrastructure finance through Multilateral Development Banks (MDBs) / investment banks / financing corporations.

Call for Proposal outcome / outcomes the project is expected to contribute

Select all fields applicable

Risk-informed infrastructure planning and development

Integrating resilience into infrastructure operations and maintenance

Augmenting financial resources

Improved awareness and capacities

Estimated project duration

Estimated start month MM-YYYY

Estimated end month MM-YYYY

1.d Indicate the current size of the organization portfolio (USD) of the Participating organisation
Briefly describe and specify number of similar projects managed over the last 5 years.(Maximum: 150 words)

2. PROJECT SUMMARY

2.a Describe how this project will support building climate and disaster resilience within ongoing or upcoming city/ national infrastructure investments
Briefly describe. (Maximum: 150 words)

2.b Benefits and beneficiaries of the project

<ul style="list-style-type: none"> • Describe direct benefits (economic, technical, technological, social and environmental) that could emerge from this project. (Maximum: 150 Words)
<p>Direct beneficiaries: Select all fields applicable</p> <input type="checkbox"/> Women <input type="checkbox"/> Children <input type="checkbox"/> Elderly <input type="checkbox"/> Differently abled <input type="checkbox"/> Low-income communities <input type="checkbox"/> Minority communities <input type="checkbox"/> Others. 2.c Alignment with UIRP funding outcomes		
<p>Clearly link benefits to the UIRP outcomes (applicable to the project).</p> <ul style="list-style-type: none"> • Outcome 1: Risk-informed infrastructure planning and development: Urban local bodies (ULBs) use data and tools to inform infrastructure development by including sustainable solutions to existing and new infrastructure. • Outcome 2: Integrating resilience into infrastructure operations and maintenance: Cities manage and operate infrastructure systems during extreme climate events and are equipped for resilient recovery. • Outcome 3: Augmenting financial resources: Cities get funding from financial institutions / Multilateral development banks (MDBs) and access to national budget. • Outcome 4: Improved awareness and capacities: Practitioners are trained on urban infrastructure resilience to inform /influence projects, programmes and investments. 		
<p>Select applicable UIRP outcomes, indicators and describe how it be achieved via the project.</p>		
Expected outcome in line with UIRP		
UIRP Outcome	UIRP Indicators	Describe how it will be achieved (Maximum: 150 words)

<input type="checkbox"/> 1. Risk-informed infrastructure planning and development	Extent of infrastructure investment that would be influenced through this project (in USD.)	
<input type="checkbox"/> 2. Integrating resilience into infrastructure operations and maintenance	Benefit (if any) of this project to existing critical infrastructure's operations and maintenance.	
	<input type="checkbox"/> 2.1 Cost of operations and maintenance (In USD)	
	<input type="checkbox"/> 2.2 Number of people project caters to (Number of people)	
	<input type="checkbox"/> 2.3 Cost of failure (In USD)	
<input type="checkbox"/> 3. Augmenting financial resources	Extent of financial resources augmented (In USD)	
<input type="checkbox"/> 4. Improved awareness and capacities	Expected number of city stakeholders with improved awareness and capacity due to this project (Number of people / Institutions)	

3. OBJECTIVES AND OUTPUT

3.a Objectives

List the key objectives that would help achieve the goal.

Identify SMART objectives:

- Specific (simple, sensible, significant)
- Measurable (meaningful, motivating)
- Achievable (agreed, attainable)
- Relevant (reasonable, realistic and resourced, results-based)
- Time bound (time-based, time limited, time/cost limited, timely, time-sensitive)

The objectives should be aligned with the UIRP Funding objective and outcomes. This should be linked to the project output and activities.

Objective 1.

Please add row if there are more objectives. It is suggested to limit number of objectives to Maximum 5.

3.b Project Outcome

Define the Project Outcome in line with UIRP outcomes (section 2.c) and project objectives.

Project Outcome

Note: Under section 7.b Work Plan, project outcome indicators and means of verification must be defined in line with UIRP outcome indicators.

3.c Project Outputs/Activities

Enumerate key Outputs of the project and corresponding activities to achieve the expected project objectives and outcome.

- Project Output: Deliverables, i.e. product, goods, services, technical reports or other immediate products (including knowledge/ analytical) that result directly from the project contributing to the outcome
- Activities: Actions taken to produce the outputs

Output	Description	Activities	
Output 1	Briefly describe	1.1	Briefly describe Activity 1
		1.2	Briefly describe Activity 2
		1.3	Briefly describe Activity 3
		Please add row if required	

Please add row for more Outputs if required. It is suggested to limit number of outputs to Maximum 5.

4. PROJECT DESCRIPTION

4.a Provide an overview of the city's context and the key challenges/ issues project aim to address

Answer all questions below.

- **Provide a brief description of the climate and disaster risks faced by the city/ cities and their impact on infrastructure systems.** (Indicate socio-economic and infrastructure investment trends, if relevant). (Maximum: 150 words)

- **What are the key challenges/ issues this proposed project aims to address?** (Maximum: 150 words)

- **How will this proposed project improve the climate and disaster resilience of the city's infrastructure systems?** (Maximum: 150 words)
Take note to link the solution/output to the four themes of this Call.

APPROACH

4.b Approach and Methodology

Describe the project approach and methodology in line with the project objectives, and outcomes (maximum: 250 words).

Example – if the objective is to develop a strategic plan for sustainable and integrated water supply infrastructure system, in the approach and methodology, describe stakeholder mapping and consultations methods, feedback and review mechanisms being followed for consultations, mechanisms for peer review, etc.

Note: Elaborate the workplan under section 7. b

4.c Data required for the project

• Specify secondary data that will be required for successful completion of this proposed project.

Data required	Agency	Type (Select from drop down menu)	Briefly describe

Please add rows if required

• Specify primary data that will be collected as a part of this study.

Select all fields applicable	Describe briefly the requirements

5.SUSTAINABILITY AND MAINSTREAMING

5.a Does the project have potential for Co-financing / funding?		
<input type="radio"/> Yes <input type="radio"/> No		
If yes, indicate co-financier		Amount in USD
<input type="checkbox"/> Primary Organization		
<input type="checkbox"/> Public sector funds	Specify name of the institution	
<input type="checkbox"/> Development banks	Specify name of the institution	
<input type="checkbox"/> Private sector	Specify name of the institution	
<input type="checkbox"/> Others	Specify name of the institution	

5.b Does the project have the potential for replication/scalability across the city/country?	
<input type="radio"/> Yes <input type="radio"/> No	
If yes, select applicable from below	
<input type="checkbox"/> Across the city	
<input type="checkbox"/> Within the country	
<input type="checkbox"/> Across similar geographies	
<input type="checkbox"/> Globally applicable	

5.c Does the project involve intellectual property rights?	
<input type="radio"/> Yes <input type="radio"/> No	
If yes, briefly describe (Maximum: 150 words)	
If yes, please indicate if you will be willing to share it with CDRI	
<input type="radio"/> Yes <input type="radio"/> No	

5.d What mediums will be used to disseminate the project's learnings?

Select all fields applicable	Indicate number
<input type="checkbox"/> Publication in Journal	
<input type="checkbox"/> Technical Report	
<input type="checkbox"/> Policy Document	
<input type="checkbox"/> Online Blog	
<input type="checkbox"/> Others. Specify:	

5.e Which platforms will be used to disseminate the project's learnings?

Select all applicable from the list
<input type="checkbox"/> Workshops/ events funded by this grant
<input type="checkbox"/> National Conferences
<input type="checkbox"/> International Conference
<input type="checkbox"/> Global forums (e.g. World Urban Forum, COP)
<input type="checkbox"/> Others. Specify:

5.f Does the project contribute to mainstreaming Gender, Equality, Disability, and Social Inclusion (GESI) considerations?

Yes No

Note: It is recommended project consider and contribute to gender equality and social inclusion considerations including but not limited to the following:

- Promoting the use of disaggregated data (e.g. sex, age, disability, mobility) on user needs to promote informed decisions in infrastructure planning and delivery, operations, and maintenance.
- Promoting policy provisions to ensure participatory approaches and meaningful participation of women and marginalized groups in all stages of infrastructure development to ensure equitable benefits of infrastructure services.
- Ensuring that infrastructure design standards comply with principles such as universal design to increase accessibility for people of all sizes, abilities, and languages

If yes, briefly describe (Maximum: 150 words)

6. ALIGNMENT TO INTERNATIONAL COMMITMENTS AND GOALS**6.a Contribution to Sustainable Development Goals (SDG) goals**

Select all applicable SDG goals.
<input type="checkbox"/> Goal 1: No poverty
<input type="checkbox"/> Goal 2: Zero hunger
<input type="checkbox"/> Goal 3: Good health and well-being
<input type="checkbox"/> Goal 4 Quality education
<input type="checkbox"/> Goal 5: Gender equality
<input type="checkbox"/> Goal 6: Clean water and sanitation
<input type="checkbox"/> Goal 7: Affordable and clean energy
<input type="checkbox"/> Goal 8: Decent work and economic growth
<input type="checkbox"/> Goal 9: Industry, innovation and infrastructure
<input type="checkbox"/> Goal 10: Reduced inequalities
<input type="checkbox"/> Goal 11: Sustainable cities and communities

- Goal 12: Responsible consumption and production
- Goal 13: Climate action
- Goal 14: Life below water
- Goal 15: Life on land
- Goal 16: Peace, justice and strong institutions
- Goal 17: Partnerships for the goals

6.b Contribution to Sendai Framework for Disaster Risk Reduction targets/ priorities

Select applicable priorities of Sendai Framework

- Priority 1: Understanding disaster risk
- Priority 2: Strengthening disaster risk governance to manage disaster risk.
- Priority 3: Investing in disaster risk reduction for resilience.
- Priority 4: Enhancing disaster preparedness for effective response and to “Build Back Better” in recovery, rehabilitation and reconstruction.

Select applicable targets of Sendai Framework.

- Target a: Reduce disaster mortality in the city
- Target b: Reduce the number of affected people in the city
- Target c: Reduce direct disaster economic loss in the city
- Target d: Reduce disaster damage to critical infrastructure and disruption of basic services in the city
- Target g: Increase the availability of and access to multi-hazard early warning systems and disaster risk information and assessments to city population

6.c Does the project contribute to Paris agreement?

Yes No

If yes, describe the contribution of project to Paris Agreement. (Maximum: 150 words)

6.d Does the project contribute to Antigua and Barbuda Agenda for SIDS (ABAS)? (Applicable only for SIDS)

Yes No

If yes, describe the contribution of project to ABAS. (Maximum: 150 words)

7.IMPLEMENTATION PLAN

7.a Key human resources

List the names and details of the key human resources

Name	Years of experience	Location	Proposed position in the project

Please add rows if there are more experts.			
Please upload one page CV of at least 5 key resources associated with this project using the template provided in the CDRI Submission Platform (merged into a single pdf).
